Showbie is a cloud based solution to managing, sharing, communicating and providing feedback for student work. At Boroondara Park we use it in Years 3-6 in both classroom and specialist settings. Think of it as a supercharged workbook where teachers can upload tasks for students to review and respond to, before the students upload their work and responses onto Showbie again. Teachers can provide written or verbal feedback for students. Showbie allows multimedia formats that match our 21<sup>st</sup> Century learning aims. The added benefit for our school is a reduction in paper wastage and printing costs.

## Learn Everywhere

Showbie keeps the teacher and their students on the same page, whether they're using your iPad, iPhone, or pretty much any computer or device with an internet connection.

### Showbie Website

Teachers and students can access Showbie anywhere, including a laptop, chromebook, or even an Android phone.

### iPad App

Get the most out of classroom iPads, whether you're using a shared cart or have a full 1:1 deployment. Showbie

## Stay on Top of Classwork

### TIMELY NOTIFICATIONS

Students are notified when work is assigned and when deadlines are approaching, and Showbie will let you know when they ask questions or hand in their work.

### GLANCEABLE PROGRESS

Take a look at your class list and know instantly who asked a question, who submitted an assignment, and whose work is past due.

### LOCK IT DOWN PRO

You can lock assignments to prepare and grade classwork in batches, giving you full control over who can see what, and when.

### STUDENT SEARCH

Type in a student's name to quickly bring up their progress across all of your classes.

## Discussions, Announcements and Collaborative Projects

### START A STUDENT GROUP

Whether it's a class project or sports team, Groups help you share important files, coordinate activities and keep everyone on the same page.
